

Ask Us About Our Care Management Program

You may be a good candidate for our new care management program.

Our program is designed to help keep you in good health and at home by allowing us to have closer oversight of your healthcare needs in between visits. You will have more control over your health, and we can catch small problems before they become big ones.

Here's what you can expect:

Your Own Dedicated Care Coordinator

With this service, you will have your own dedicated Care Coordinator who will communicate with you and your healthcare team to follow through on your needs. Your coordinator can help with referrals, medications, tests, and appointments, and other things that you may need. You do not need to leave your home or make additional appointments to receive this valuable service.

Covered By Medicare

This program is covered by Medicare and could be covered-in-full if you have a secondary insurance. Full coverage depends on your secondary insurance carrier (EXCLUDING Tricare and Humana insurance) or Medicare Replacement Plan Coverage. Although Medicare developed this program, you do not need to be a Medicare beneficiary to take advantage of these valuable services. Most commercial and Medicare Advantage plans also cover this benefit.

Like all other healthcare services, Care Management is subject to your annual insurance deductible, coinsurance (\$12-\$15), and copay. Depending on your specific benefits there may be a minimal fee associated with the program.

For more information or to enroll today, call our partners, Cosan at (516) 908-1004 or scan the QR code below to go to our online enrollment form: <https://m.ccm1.net/aucpo>
